

# Add newNode After CurNode in Doubly Linked List

Logic:

```
ListInsertAfter(list, curNode, newNode){
```

```
    sucNode --> curNode.next;  
    newNode-->next = sucNode;  
    newNode-->prev = curNode;
```

```
    curNode-->next = newNode;  
    sucNode-->prev = newNode;  
}
```
